Full-Stack Software Engineer

Driving Innovation in Distributed Software Development and Transformative Digital Solutions

Results-oriented Full Stack React Developer with over 3 years of hands-on experience in Node.js, React, and GraphQL. Proven expertise in transforming legacy platforms into cloud-based solutions, ensuring the creation of innovative digital products that enhance user experiences. Familiar with DevOps, CI/CD, and Build pipelines, with a strong commitment to delivering efficient solutions and driving the success of cross-functional projects.

Core Competencies

- Problem Resolution
- Test Driven Development (TDD)
- Continuous Integration/Continuous Deployment (CI/CD)
- User Experience / User Interface (UX/UI) Design
- SAML / SSO Authentication
- Troubleshooting
- Database Management
- Object-Oriented Programming (OOP)
- Communication

Technical Skills

Languages	JavaScript (ES6+), CSS3/CSS, HTML, SQL, TypeScript
Databases	MySQL (RDS), PostgreSQL/Postgres, MongoDB/NoSQL, RESTful APIs, Firebase Cloud/Firestore
Packages/libraries	React/Redux, React Native, Node.js, Electron.js, Apollo Provider, GraphQL, Sequelize, Vue.js
Tools	Git/Github/Gitlab, Figma, Adobe Creative Suite, Jira, Confluence, Twilio, JSON
Other	Server-side JavaScript, Single Page Applications (SPA)

Professional Experience

ELEVANCE HEALTH, Remote, United States 2022 - 2023
Software Engineer II

- Enhanced user accessibility by 10% through the development of user-friendly web interfaces in React.js and JavaScript.
- Optimized PostgreSQL database structures and endpoints for systematic task automation.
- Contributed to the full software development life cycle, ensuring coding standards, code reviews, and testing.
- Integrated user interface components with Node.js and GraphQL endpoints for efficient data retrieval and security.
- Executed a comprehensive full-stack role, seamlessly bridging the gap between front-end and back-end development using JavaScript.
- Developed responsive features, improving efficiency by 20% for tasks like lead list and cohort approval.
- Played a key role in application performance testing and optimized database endpoints for efficiency.
- Drove software architecture, troubleshooted issues, and improved team productivity by 25%.

Independent Developer, Remote, United States 2021 - 2024

- Led diverse projects, demonstrating proficiency in JavaScript, React, CSS, SQL, and Cloud-based databases.
- Completed hands-on projects, including a personal portfolio website and a Typescript Expo React Native iOS Mobile app.
- Mastered Full-Stack development, demonstrating expertise in JavaScript with a focus on React, SQL, Sequelize, Node.js, and other complementary technologies.

- Integrated 3rd-party RESTful APIs and cloud databases into applications with seamless API calls while optimizing server-side performance.
- Obtained proficiency in NoSQL, Cloud-based databases (Firebase and Heroku), and Python in 2024.

OVERNIGHT PRINTING, Seattle, WA 2021 - 2022
Lead Graphic Designer
- Conceptualized and designed impactful user experiences and marketing materials for local elections and events utilizing softwares such as Adobe Illustrator, Adobe Photoshop, and Adobe Indesign.
- Drove business-wide productivity 50% while ensuring quality control by assuming diverse roles, taking on cross-functional responsibilities, and streamlining operations across departments.
- Assumed diverse roles and streamlined operations across departments, ensuring quality control and negotiating client invoices in alignment with revenue goals, increasing revenue 10%.

Education and Certifications

- **Bachelor of Fine Arts (BFA),** Towson University, Towson, MD, 2020
- **Certificate, Full-Stack Web Development,** University of Washington, Seattle, WA, 2021
- **Certificates in React (Basic) and Front-End Developer** from HackerRank, 2023
